

Application No. 10/628,142
Amendment dated July 31, 2007
Reply to Office Action of May 1, 2007

REMARKS

The claims have been amended in accordance with proposed amendments submitted to the patent examiner, and a telephonic interview concerning the proposed amendments. The rejections in the official action over the Rivette patent, U.S. Patent No. 5,623,679, are respectfully submitted to be overcome, by the above amendments, particularly in the clarification that the marginal "highlighting" in the claimed invention is continuous between at least some adjacent lines of text, as discussed in the interview.

The applicant and undersigned again thank the patent examiner for the interview.

In view of the above amendments and remarks, reconsideration of the application and allowance of all of the claims are respectfully requested. If any issues remain which can be resolved by a supplemental response or an Examiner's Amendment, the Examiner is respectfully requested to contact the undersigned attorney at the telephone number indicated below.

Respectfully submitted,
